Table-top coin counting machines

A unique line of table-top machines

As a result of CTcoin's long tradition of product development combined with a successful collaboration with Bang & Olufsen designer David Lewis a new generation of table-top coin counting and sorting machines are introduced. Pelican + models 301 have higher speed, lower noise level and more options.

A reliable coin counting machine

CTcoin's 5th generation alloy sensor technology ensures highest counting accuracy and rejects foreign coins, counterfeit coins and tokens etc.

Improved features:

- Speed: Up to 1100 coins/minute
- Reduced noise: More than 30% noise reduction

Pelican 301 S+ offers all the well-known CTcoin advantages:

- Value counter
- Counting of up to 20 different coin denominations
- Rejection of foreign coins, counterfeit coins, tokens etc.
- 2 different coin denominations can be shown in the two line display
- Tilt sensor for easy cleaning of coin rail
- Programmable bag stop (by number or weight)
- Battery back-up
- Coin tubing and bagging programme
- Programmable fee system

Models:

Pelican 301 S+ 24 V mixed coin counting machine with reject function

Options:

Integrated printer, external printer, external display, interface RS 232 (PC connection), PC keyboard, tubing kit, bagging kit, header and footer programme and inspection tray.

Dimensions:

Length:	400 mm
Depth:	240 mm
